

# Greenfield Crescent, Nailsea

## Overview:

Site Location:	>> Nailsea
Client:	>> Wessex Water
Contract Value:	>>
Project Duration:	>> 9 weeks

Auger boring

Open cut

The works comprise the construction of a new gravity sewer and upsizing section of existing mains using pipebursting techniques and the construction of new manholes along the route. Open cut methods across Clevedon Road/Pound Lane junction was substituted by a more appropriate auger boring method of installation. This brought health and safety benefits as well as cost benefits to the scheme.

Typical lengths included the following:

- 104m x 300mm sewer by open cut methods.
- 60m x 450mm sewer by open cut methods.
- 37m x 450mm sewer by auger boring techniques.
- 140m x 300mm sewer by pipebursting methods (upsized from 225mm).
- Construction of 10 Nr manholes.

Reinstatement works for the scheme

The Client for the scheme was Wessex Water Services Ltd
